To Whom It May Concern,

Unfortunately, there is no organically grown seed available at this time of the varieties in the Pastures for Pollinators mixture.

The coating used on Pastures for Pollinators is Organic Nitro-Coat® and is OMRI approved and listed.

The components of Pastures for Pollinators mixture are not GMOs.

Sincerely,

A handwritten signature in black ink, appearing to read "Risa DeMasi", with a long horizontal line extending to the right.
